**CLEAN BALLAST WATER  
FOR YOUR VOYAGES**

## BE COMPLIANT AND PROTECT THE BEAUTIFUL OCEANS...

Your ballast water management system will ensure you do not transfer living organisms, including microorganism, algae, bacteria and vira from one part of the world to another. The process prevents the introduction and spread of invasive species, which are a threat to local eco-systems.

Our CompactClean ballast water management system (BWMS) is fully automated and is easy to operate, and installation is as easy as plug and play.

100% chemical free treatment, which safeguards the crew, the vessel, and the environment.

Smallest footprint in the industry.

Type approved by the International Maritime Organisation (IMO) and US Coast Guard (USCG).

Reliable and efficient treatment of ballast water.

Easy to operate.

CompactClean (model)	35	85	135
<b>Max flow</b> (Global mode) Ballast [m <sup>3</sup> /h]	35	85	135
<b>Max flow</b> (Global mode) De-ballast [m <sup>3</sup> /h]	40	85	160

CompactClean OptIMO (model)	55	135
<b>Max flow</b> (IMO mode) Ballast [m <sup>3</sup> /h]	55	135
<b>Max flow</b> (IMO mode) De-ballast [m <sup>3</sup> /h]	60	135
<b>Max flow</b> (USSG mode) Ballast [m <sup>3</sup> /h]	40	85
<b>Max flow</b> (USCG mode) De-ballast [m <sup>3</sup> /h]	40	85

## RELIABLE OPERATION

If you want to relax and enjoy your sailing, the CompactClean BWMS is the right choice - you can depend on its reliability. More than a thousand sold systems and a large number of systems in operation for years tell the story: CompactClean will run and perform smoothly.

## SERVICE NETWORK

We know, that up-time is essential so that the yacht can sail according to your needs and desires, but if needed, our global service network is available 24/7/365.

And, to ensure many years of trouble-free operation we also supply service packages for annual system inspections.
